

PEP Themes 2013

Context	
Aneesthesiology	Mood disorders
Animal disease models	Women's mental health
Anatomy - emphasis on human anatomy	Drug misuse
Morphology	Child behaviour
Arts, Histories and Cultures	Molecular biology
Biochemistry	Genetic Medicine
Business	Genetics and genomics
Cardiovascular	Genomics
Cardiology	Transcriptomics
Chemistry	Biobanking
Chemical Engineering and Analytical Science	Musculoskeletal system
Computer Science	Musculoskeletal trauma and disorders
Dalton Nuclear Institute	Rheumatology
Dentistry	Arthritis
Oral health and oral surgery	Pain
Dermatology	Sports medicine
Psoriasis	Neuroscience
Skin	Neurodegeneration
Development, human	Neurology
Stem cell research	Neuroscience Research
Stem cells	Clinical neurosciences
Embryology	Cognition
Regenerative Medicine	Nursing, Midwifery and Social Work
Epithelial biology	Occupational health
Earth, Atmospheric and Environmental Sciences	Disability
Education	Oncology
Electrical & Electronic Engineering	Manchester Cancer Research Centre
Emergency and critical care medicine	Breast Oncology
Endocrinology	Radiation oncology
Diabetes	Tumour angiogenesis
Metabolic disease	Ophthalmology
Environment and Development	Orthopaedics and visual science
Environmental health	Pathology
Gastroenterology	Cell biology / cell pathology
Gastrointestinal tract	Photon Science
Gerontology	Physics and Astronomy
Ageing	Physiology
Global health	Population health
Sustainable Consumption	Epidemiology
Tropical Medicine	Public health
Humanitarian and Conflict Response	Health care policy
Brooks World Poverty	Health economics
Disaster management and response	Health Policy
Gynaecology and obstetrics	Health promotion
Gynaecological oncology	Public Policy and Management

Context	
Maternal and Foetal Health	Health Services Research
Haematology	Preventive medicine
Leukaemia	Social Change
Health Sciences	Social Medicine
History of medicine	Pharmacy and Pharmaceutical Sciences
Imaging sciences	Pharmacology
Biomedical Imaging	Toxicology
Radiology/imaging	Paediatrics
Imaging	Paediatric, adolescent and young adult oncology
Immune system	Primary care
Immunity	Community and family medicine
Immunology	Professional practice
Immune system oncology	Professional development
Inflammation	Communication
Sepsis	Quality of health care
Allergy	Evidence-based practice
Auto-immune disease	Clinical governance
Infection	Patient safety
Medical microbiology	Research infrastructure
Microbiology	Research methods
Infectious diseases	Science, Ethics and Innovation
Virology	Biostatistics
Interdisciplinary Biocentre	Innovation Research
Internal medicine	Bio health informatics
Whole body medicine	Informatics
Translational Medicine	Digital biology (healthcare)
Multimorbidity	Respiratory system
Languages, Linguistics and Cultures.	Respiratory medicine
Law	Lung cancer
Law, medical and health care	Lung oncology
Law, mental health	Asthma
Ethics, medical	Social Sciences
Life Sciences	Surgery
Materials	Urology
Mathematics	Nephrology
Mechanical, Aerospace and Civil Engineering	Genito-urinary Oncology
Medical education	Workforce research
Educational innovation	
Mental health	
Psychiatry	
Psychology	
Psychological Sciences	
Old age psychiatry	
Psychosis	
Suicide prevention	
Forensic mental health	
Addiction	

Context	
Autism	

Vocation	
Acute Internal Medicine	Paediatric Emergency Medicine
Allergy	Paediatric Surgery
Anaesthetics	Paediatrics
Audiological Medicine	Palliative Medicine
Cardiology	Pharmaceutical Medicine
Cardiothoracic Surgery	Plastic Surgery
Chemical Pathology	Psychiatry of Learning Disability
Child and Adolescent Psychiatry	Psychotherapy
Clinical Genetics	Public Health Medicine
Clinical Neurophysiology	Rehabilitation Medicine
Clinical Oncology	Renal Medicine
Clinical Pharmacology and Therapeutics	Respiratory Medicine
Clinical Radiology	Rheumatology
Community Sexual & Reproductive Health	Sport and Exercise Medicine
Dermatology	Children's mental health
Emergency Medicine	Community child health
Endocrinology and Diabetes Mellitus	Cytopathology
Forensic Psychiatry	Forensic Pathology
Gastroenterology (including sub-specialty Hepatology)	Gynaecological oncology
General (Internal) Medicine	Liaison Psychiatry
General Practice	Maternal and fetal medicine
General Psychiatry	Neonatal medicine
General Surgery	Neuropathology
Genitourinary Medicine	Paediatric clinical pharmacology and therapeutics
Geriatric Medicine	Paediatric diabetes and endocrinology
Haematology	Paediatric emergency medicine
Histopathology	Paediatric gastroenterology, hepatology and nutrition
Immunology	Paediatric immunology, infectious diseases and allergy
Infectious Diseases	Paediatric inherited metabolic medicine
Intensive Care Medicine	Paediatric intensive care medicine
Medical Microbiology (NEW)	Paediatric nephrology
Medical Oncology	Paediatric neurodisability
Medical Ophthalmology	Paediatric neurology
Medical Virology (NEW)	Paediatric oncology
Metabolic Medicine	Paediatric palliative medicine
Multi-Vocational	Paediatric Pathology
Neurology	Paediatric respiratory medicine

Vocation	
Neurosurgery	Paediatric rheumatology
Non Clinical	Rehabilitation Psychiatry
Nuclear Medicine	Reproductive medicine
Obstetrics and Gynaecology	Sexual and reproductive healthcare
Occupational Medicine	Stroke Medicine
Old Age Psychiatry	Substance Misuse Psychiatry
Ophthalmology	Urogynaecology
Oral and Maxillofacial Surgery	Trauma and Orthopaedic Surgery
Otolaryngology	Tropical Medicine
Paediatric Cardiology	Urology
