

MSc 'Medical Education'

Are you interested in gaining a qualification in medical education?

This programme may be for you.

The programme will enable you to:

- develop practical, generic skills in teaching and assessment, underpinned by an understanding of educational theory
- enhance your knowledge and skills as a medical teacher, in relation to teaching and assessment
- plan and deliver effective educational experiences
- develop sound academic skills, including literature review and research

Certificate 'Medical Education' (Yr 1)

Study units: Personal/Professional Development; Teaching Methods; Assessment; Communication & Educational Media.
The units are linked to assessed written assignments and two observations of your teaching.

Diploma 'Medical Education' (Yr 2)

Study units: Research Methods Curriculum Development; Assessment; Organisation, Leadership and Management of Teaching.
The units are linked to assessed pieces of work.

MSc 'Medical Education' (Yr 3)

Year three comprises the writing and submission of a dissertation on a medical education topic.
