

February updates

Despite being a short month, February was our best yet with the most replies received and most participants randomised!

We'd like to thank you all so much for your continued efforts, with particular thanks to new sites who have got off the ground so quickly!

The end of March sees the end of our pilot period so we are busy preparing our pilot report and getting figures organised so we are ready to meet with the NIHR in April. It has been a tricky start for the trial but we are seeing things pick up every month and we feel hopeful that we'll be able to see it through to our 2300 participant target!

If there is any feedback you would like to provide regarding the trial, please let us know using the contact details at the bottom of this newsletter.

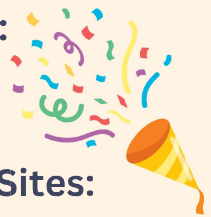

Bank details

If you have not done so already, please send us your practice bank details on headed paper. We need these in order to set your practice up as a supplier, so we can process your participant payments. We *cannot* pay your site until these have been received.
